Indonesia Tourism - Lido Lake

Lido Lake located in the Bogor Sukabumi City, West Java Province, Java Island, Indonesia. Lido lake that was beautiful and wide became the tourist attraction for the community around and from outside the Sukabumi City. The tour that became the mainstay here was the water tour. At the edge of the lake, there were many means that could be used for tourists that want to enjoy beauty of the lake, for example the water bicycle, speedboat or that was more unique and traditional was to use the raft that was made from bamboo.

Tourists could stop over in the small island that was in the middle of the lake to relax or order food. You could order corn burnt and the young coconut in this island. Tourists could enjoy cool and fresh mountainous air that will make the relaxing atmosphere of tourists increasingly pleasant in the Lido Lake.

Moreover, several facilities were provided by the manager the Lido Lake as the place fished. For tourists that the hobby fished, certainly this activity was very pleasant to fish directly in the lake that many fish. Tourists could also enjoy means to outbound in the Lido Lake like Flying Fox that was defiant enough.

After satisfied to go round, its time to fill up the stomach. Tourists could choose to eat in the floating restaurant. Acknowledged as floating because the place ate this was on water and tourists will dine on the raft that floated. The menu most were the typical menu really Sunda. While considering the wide lake, fish as well as surrounding scenery, as certain will make appetite improve. That not to mention wind bellows slowly that was cool. After tourists enjoyed various tours that were interesting and pleasant in the Lido Lake, tourists could also buy various things the interesting eyes that were sold by the inhabitants around in this tour region.
